

Purpose

The purpose of the CBA's Technology Law Section is to provide leadership on issues concerning science and technology and the law. The section's goals are as follows:

1. to provide a forum for members of the profession to review, analyze and correlate developments in science and technology and to evaluate the impact of such developments on society and the law;
2. to study, report and make appropriate recommendations on the regulation of science and technology and related legal issues;
3. to establish and maintain liaison and cooperation between the scientific and technological, and related legal, developments;
4. to contribute to public and professional understanding of the effects of science and technology on law, of the problems arising therefrom, and of the processes by which the law responds; and
5. to cooperate with and assist other CBA entities in associated or related areas of activity.
